UCLA NROTC
Bruin Battalion Yearbook
2002-2003
“...It is by no means enough that an officer of the Navy should be a capable mariner. He must be that, of course, but also a great deal more. He should be, as well, a gentleman of liberal education, refined manner, punctilious courtesy and the nicest sense of personal honor.

He should be the soul of tact, patience, justice, firmness, and charity. No meritorious act of subordinate should escape his attention or left to pass without its reward, even if the reward be only one word of approval. Conversely, he should not be blind to a single fault in any subordinate, though at the same time he should be quick and unfailing to distinguish error from malice, thoughtlessness from incompetency, and well-meant shortcoming from heedless or stupid blunder. As he should be universal and impartial in his rewards and approval of merit, so should he be judicial and unbending in his punishment or reproof of misconduct.”

- John Paul Jones, spoken before the Maritime Commission of 1775

“When the path to take is not clear, rely on your core values to steer a course. Remember - Mission first; take care of your people to the best of your ability when accomplishing the mission; place “Self” last in any decision made. I wish you all fair winds and following seas. It is an honor to have served with you. Semper Fidelis.”

Commander Angus McColl
“Love God, love your family, love your country, love your neighbor, love your work. Many things are beyond your control, but everyday you can choose to love these things.”

“There are two different types of leadership styles: authoritarian and persuasive. There will be many different types of people you will encounter throughout your career. Approach each of them in a manner that allows your orders and decisions to radiate with confidence and authority, and at the same time giving that individual the absolute feeling of pride that they WANT to do this task to the best of their ability for you.”

MY FIRST DAY

“When I first met the ROTC O-Week staff members, I felt like I was a freshman in high school again; everyone seemed so big and intimidating. Soon we were issued our uniforms and I was shocked at my new Navy appearance. We all wondered what we were getting ourselves into that first day, and looking back, I think it’s easy for the fourth class to laugh at how scared we all were.”
--MIDN 4/C Bernier

“I thought O-Week was very interesting. It was very funny to watch the freshmen go through a very light taste of bootcamp. For me, all the experiences were just a lot of fun.”
--Sgt Rakin

“1) Am I supposed to be a part of this group (meaning the 4th Class)?
2) Cuadrado, who is this guy Verde (AKA Mr. Green)?
3) Hold me, Cuadrado, because if this guy Verde says one more thing to me I will break his neck (lucky for him that day was the end of O-Week).”
--SSgt Daviu

“My first day of ROTC was actually during my second year, which might be a surprise to a few people. When I joined, it was a month into the quarter and everyone seemed to know all the go-abouts of the unit. They threw me into the whole rotation of things and I had no idea how to drill, when to salute, etc. I basically made very mistake you could think of that first day.” --MIDN 3/C Eclevia
“I walked to ROTC with MIDN-retired Bell, because we were the only people that lived on Hilgard. Once we got to the classroom, I remember hardly seeing any females, Mr. Mendoza had on shorts, Mr. Stender kept looking to the back of the classroom, and a couple of the guys had really big hair, which was gone within the hour.”--MIDN 1/C Morgan

“My first instinct was to stay the heck away from that Gunny fellow.”--MIDN 2/C Hong

“I was pretty excited about my first day of ROTC, but I was also nervous and did not know what to expect. I have wanted to be in the Marine Corps for many years so I was just glad to be here and was undoubtedly ready for anything.”--MIDN 4/C Nickols

“The second I stepped off the bus for my INDOC training, the barrage of screaming, being humiliated, PTing, 0430 mornings, throwing up, and getting injured consumed my days. “This cannot be what real military life is like,” I repeadeedly thought during my stay at the base; “No one can live like this!” When it was over, the feeling of accomplishment, a true understanding of motivation, and the knowledge that life in ROTC would not be like this, gave me a sense of belonging and I knew that becoming a part of the military would be the best decision I had ever made.”--MIDN 1/C Dutkiewicz
Tuesday mornings are jam-packed for midshipmen. Usually starting at 0700, midshipmen meet in the John Wooden Center to get their rifles and swords and then head out to Wilson Plaza for Drill. Afterwards, midshipmen head up to Haines, where Prolab takes place.

Golf Day

The Second Annual Golf Day proved to be a hit once again. Midshipmen enjoyed a nice round of golf, followed by a great barbeque. MIDN 2/C Ismawan lines up his next shot.

COLOR GUARD

For the second year in UCLA NROTC Color Guard history, the Color Guard Team participated in the Tulane National Drill Meet in February 2003, and did well. Besides practicing hard for this competition, the Color Guard participated in other events such as the Armed Forces Appreciation Day, in which members from all services took part in comprising the Color Guard for the UCLA versus Washington football game.

The hard-working Drill Team proved that practice pays off when it represented UCLA at the Tulane National Drill Meet in February 2003. The team placed 3rd overall, 4th in Regulation, 1st in Inspection, and 2nd in Squad Basic.

Every year, NROTC puts teams together to participate in the various IM Sports offered by UCLA Recreation. This year midshipmen had the chance to participate in volleyball, basketball, soccer, and softball. MIDN 4/C Signaigo displays his soccer skills in a game held in Drake Stadium.

MIDN 3/C Trejo takes a swing at the ball during a pre-game practice.

Chancellor’s Cup

Chancellor’s Cup was a great show of camaraderie and sportsmanship as the Battalion came together to compete in various athletic events. Teamwork, motivation, and enthusiasm played a huge role and led to yet another Navy victory.

MIDN 3/C Pulliam and MIDN 2/C Hoover compete in the Sit-up Challenge, in which Navy captured the victory.

MIDN 2/C Ragadio puts up a shot against Air Force. MIDN 4/C Kaminski plays an unidentified position. As you can see, she was quite pivotal in the Navy’s win.

Midshipmen enjoy another event. As always, the volleyball team took first place.

Air Jordan? No, it’s MIDN Air Davis.
Outside Activities

While attempting to balance school and ROTC, many midshipmen also face of the challenge of adding work, clubs, or other outside interests to their platter. Here we take a look at some midshipmen and how they spend their time outside the unit.

MIDN 2/C McBride spent much of the year working at Best Buy.

MIDN 3/C Eclevia took part in Pilipino Culture Night.

MIDN 1/C Morgan wrote for the Daily Bruin Arts & Entertainment section. Here she is with pop/rock star Duncan Sheik.

SSgt Daviu likes to spend his time hanging out with models.
MIDN 3/C Pulliam enjoys reading, writing, and reciting her own poetry. She takes some time in the Wardroom to read poetry.

MIDN 1/C Mendoza models his Albertsons apron. MIDN Mendoza had to juggle work, school, ROTC, and family life during his years at UCLA.

MIDN 4/C Fawcett and MIDN 4/C Marbella show off their Laser Tag skills.
**BIRTHDAY BALL & STAR AND STRIPE BALL**

NROTC formals are a great time for midshipmen to get to know each other while getting a taste of what formal events will be like in the fleet. The Birthday Ball is held in the Fall with USC. The Star and Stripe Ball honors seniors and takes place during the Spring.

Midshipmen and their dates take time to assemble for a photo.

Summer Cruise

Summer Cruise is a time for midshipmen so see what life is like in the fleet. In addition, midshipmen learn about all the warfare communities during CORTRAMID, see the role of enlisted supervisors on their second class cruise, and experience firsthand the role of junior officers during their first class cruise. But most of all, midshipmen have fun.

MIDN 3/C Gonzalez: “Umm, yeah, I really didn’t touch anything....I swear.”

MIDN 2/C Wandell: “If only I were flying a fighter...then I’d give this two thumbs up!”

MIDN 3/C Hinojos models his flightsuit: “They call me Maverick.”

MO? No. MIDN 3/C Matchek is just enjoying Marine Week during Cortramid.

MIDN 1/C Lo chose to go on submarine for one of his cruises.
MIDN 1/C Dutkiewicz stands by her rack, where she stayed for her second class cruise.

Little did we know that MIDN 1/C Blood had the strength to move buildings. Must be the pasta.

MIDN 2/C Breeden: “This boat will be mine! boo haha!”

MIDN 1/C Hartman: “Goose!? Where’s Goose!?”

MIDN 1/C Stender gets his backseat qualification during Aviation Physiology.

WAR FACES

Have you ever wondered if some of your scariest, most painful expressions have been caught on camera, and then hoped that they weren’t? Well, they were, and so much so that captions aren’t needed.
